Company Profile

ABOUT TURKISH STONES

The homeland of natural stone, Türkiye has been a source of inspiration in architecture in stone for more than 12.000 years. Today, Türkiye is home to the world's largest natural stone reserves with a wide variety of Turkish Stones offered in more than 150 stone types and more than 650 colors and patterns. Türkiye offers this abundance of natural stone to designers, architects and buyers with patterns and colors of high quality marbles such as Anadolu Beige, Anadolu White, Anadolu Black and Anadolu Travertines, alongside its unique and signature marbles like Elaziğ Cherry, Milas Lilac & Marmara Marble. As the leading global source for natural stone, Türkiye exports a host of Turkish Stones to global architecture projects. In addition to marble and travertine, Türkiye exports basalt, dolomite, limestone and granite either as blocks or as processed stone products such as tiles and mosaics.

More than 1.500 marble quarries, 200 factories and about 9.000 workshops operate in the sector.

As being the number one marble and travertine exporter with 2 billion dollars exportation, Türkiye exports various stone types either as blocks or as processed stone. Turkish Stones exporters are known for their high level of service and know-how. Applying technology, Turkish Stone producers can create natural stones, in any shape and forms that can be imagined and designed. Turkish natural stones can be transformed from monolith organic forms to the thinnest sheet to decorate interiors from home to automobile.

The production natural Stones in Türkiye has grown rapidly in the last decade. Large scale private companies invested in integrated processing plants, which resulted in developments in the local market. With the introduction of modern production equipment and methods, Türkiye has become one of the world's prominent natural stone producers.

LEONARDO MARBLE

Nurhat GULBETKIN

Company Profile

ABOUT

Natural Stone Supplier & Quarry Owner Leonardo Marble is one of the leading traders and manufacturers of Turkish natural stone with an experience of 31 years. Based in Istanbul Türkiye, we always committed to sourcing only the highest quality natural stone and providing exceptional service. In 1992, we started as a trader of granite from Ukraine, Russia and Kazakistan to Türkiye, Italy and the Far East. During this period, in response to a demand in these markets, we began exporting marble, travertine and limestone from Türkiye. Our experience and feedbacks forwarded us to focus more on Italy which is trend-setter in stone related architecture sector. In 2008, we officially launched our first Italian partner company and showroom A&G 23 Srl. Since then, we have been following the new trends in Italy and selling Turkish and Italian natural stones all over the world.

In addition to the marble trade, we have been operating the MOCA limestone quarry in eastern Türkiye since 2012. Turkey's best beige limestone Gold Moca and the world's best gray limestone Silver Moca come from this quarry.

PRODUCTS

Marble, Travertine, Limestone and Onyx block, slab & cut to size.

EXPORT MARKETS

China, India, USA, Brazil, Mexico, Italy, Greece, Portugal, South Korea, Australia, New Zealand, Indonesia, UAE, Qatar, Israel, Kuwait, Bahrain, Morocco
